THE WILMINGTON JOURNAL.

WILMINGTON, N. C., FRIDAY, NOV. 2, 1855.

In this town, on the evening of the 30th inst., Hon. ED-WARD B. DUDLEY, formerly Governor of North Carolina, in the 65 year of his age.

Some one better qualified by information and acquaintance with the subject, will no doubt pay that tribute to the memory of Governor Dudley so eminently due to his character and public services. We but know that when he ceased to breathe, a generous and high-souled gentleman passed away from among us; we can but know that he was ever and always an earnest liberal and untiring friend of public improvements in the State, and especially of those works which have contributed so much to the growth and prosperity his fall, he proved untrue. Murat was deposed and of Wilmington. His best monument lies around us.

The flags of the shipping in port, and at other points in town, are displayed at half-mast, in token of respect to his memory. It will be seen that a meeting of citizens is called at 3% o'cleek, this afternoon.

The funeral will take place from his late residence to-morrow afternoon at 3 o'clock. His remains will be interred in years at or near Bordentown, N. J., in the neighbor-Oakdale Cemetery .- Daily Journal 31st ult.

Yesterday, on motion of George Davis, Esq., the Superior Court adjourned out of respect to the memory of Governor Dudley. Mr. Davis, on making the motion, and Judge Ellis, in adjourning the Court, spoke feelingly of the virtues and public services of the deceased.

The Town meeting called at the Commissioners Hall, at 3½ o'clock, P. M., was adjourned to the Court-House. It was large, and comprised many of those who best knew and most highly respected Mr. Dudley .- Daily Journal Nov. 1st.

Mr. John F. Crampton, British Minister at Washington, is one of the class referred to. He has recently exhibited a genius, an aptitude, a natural facility for Judyism deserving of our notice, and challenging our admiration. Not content with acting in an ungentlemanly and undiplomatic manner in regard to the attempt to enlist within the jurisdiction of the United States recruits for the Foreign Legion in British pay, for which, if one half the N. triumphs—the fact is notorious. These little spurts amount to nothing, and he knows it, and, but for his as- have heavy interests at stake-too heavy to be trifled astonishing insolence, he would know that he has no right to say a word on the subject, predicating what he does say upon a pretended discovery of a pretended secret circular. It might do very well for the British Postmaster General, Sir James Graham, we believe, to violate the sanctity of the mails in England, during the troubles in 1848-'9, for the purpose of finding out, by the letters of Republican chiefs in England to the actors on the continent, the plans and expectations of the patriots, which the "Right Honorable" Sir James than betrayed to the banded despots; but Mr. Crampton must not expect the government of the United States to allow of anything of the kind, or take cognizance of information so surreptitiously obtained.

In the last number of "Household Words," by Dickens, there is an article headed "A Tight Little Island," the tight little Island alluded to being Heligoland, a mere rock in the North Sea, forming the apex of a triangle, of which a line drawn between the mouths of the rivers Elbe and Weser forms the pect of rain, the turn-out was highly gratifying. base. This little spot is held by England as a sort of sentry at the door of its neighbors, the German States, and is used as a depot for recruits from these States, although the laws of them all are directly opposed to the enrollment of their citizens in any such manner. It is a centre for illegality-for evasion of the municipal laws of the Continental States -a continued insult to them-a continued beacon for all violators of their laws and policy; and the writer in "Household Words" rejoices over the acuteness that plans so nice an arrangement. Lucien Murat is a fat, roley poley, middle-aged and round-bellied man, who lived for very many hood of the residence of his uncle, Joseph Bonaparte,

ex-King of Spain, then known as Court Surveilliers The Philadelphia Bulletin brings forward some reminiscences of Murat, which render his rise into princehood certainly more amusing if not quite so astonishing as that of his cousin the Emperor. "Murat," as every body called him in Bordentown, had as little of the prince about him as could well be imagined, if we except a most princely contempt of all sorts of work or business, and a majestic neglect of all those little pecuniary obligations known as debts. He was generally out at the elbows, but somehow got along, while his uncle remained in this country. The departure of Joseph Bonaparte, if it did nothing else, certainly impaired the credit of Lucien Murat. We had almost forgotten to mention one of Murats qualifications-he could drink "any given number of rule.

Those citizens outside of the order simply want to break down the exclusion which the temporary ascendancy of K. N.-ism has brought about. They seek to arouse neither personal bitterness nor factious division. Among them will be found gentlemen who with or sacrificed at the dictation of passion, or in obedience to the behests of faction. They seek, if possible, to put an end to both by putting an end to that system of exclusion which must inevitably result in heart-burnings and hard feelings. We think that it is possible, and that it can and will be accomplished. We ask for it the fair and candid consideration of our people. The movement bids fair to be pushed forward calmly and steadily, but with the firm determination to use every honorable means to attain success .- Daily Journal 30th Oct.

Parties--How they Stand.

For years, says the Richmond Enquirer, the political skies have been lowering and stormy, and portentious of a disastrous future. Suddenly an unexpectedly the clouds have passed off, the sun has returned, and all looks cheering and hopeful. At the very moment when we feared that sectional parties would be formed, that North and South would meet in hostile array, the very opposite of all this has happened. The audacious excesses of the infidel and agrarian Isms, have aroused the conservatism of the North into action. And behold, Maine and Pennsylvania are vieing with Virginia and Georgia in deep utterance of their detestation and abhorrence of the common enemy. We are one people-one in language, in thought, in interest, in religion, in sentiment, in feeling. In Europe, each little Province and County has its separate language, habits, customs and manner of thoughts. Here you cannot distinguish the citizen of Boston from the citizen of New Orleans. All speak English, and speak it well. All to religion, law, government and morality. The

Isms alone form a distinct and separate class and party, and these Isms have at last been brought to organize themselves into a compact body. They are the party of the Opposition. The Democrats aided by the conservative Whigs of the North and of the South, and by all that is respectable and reliable, in Southern Know-Nothingism, constitute the party of the country and of the Administration. "1. Shell Wounds .- A seaman, knocked down b a fragment of a mortar or shell, was picked up dead. The head was apparently swept from his shoulders, but there was no trace of hemmorrhage. On disentangling his clothes, which were tightly jammed around the injured part, the head was found driven downward into the chest, carrying with it a great portion of blue shirt and red comforter. A small tuft of hair alone was visible at the bottom of a deep cavity. It was a regular intersusception.

"An officer of engineers had just entered the battery, when a 13-inch mortar shell fell close by him, exploding as it struck the ground. One thigh was blown into the air; the other, with its bones shattered throughout, but retaining its continuity by means of its integuments, was thrown around the back of his neck, and hung pliantly over the opposite shoulder, just as the arm of a child might lie in contact with its mother's neck. It is only to be wondered at that more casualties have not occurred among the medical officers for during the heat of the fire they are constantly called from place to place, running along the batteries, through the line of fire, in quest of the wounded. During the second bombardment, the peripatetic system was very trying and fatiguing, for the soil was heavy and tenacious from the torrents of rain that then deluged the trenches, and instances occured where officers' boots drew off while running

Charlotte, in lower Virginia. A mild and lovely Sabbath morning found me seated in one of the comfortable-cushioned pews of the village church at the Court-House. As it wanted a few minutes to the hour of service, my eye wandered over the large and respectful-looking audience assembled, and was finally attracted by a very eccentric individual, who was just entering-a rather aged man, tall, of dark complexion, long white hair waving plentifully over his shoulders, and an equal venerable beard flowing on his breast. His step was active and graceful, his form erect and manly. But his peculiar actions were in striking contrast to his dignified appearance. At first I thought him only eccentric, but a few moments of further observation proved to me that he was insane.

"Immediately on entering the pew he knelt towards the wall, crossed himself, and apparently, repeated a prayer. He then sat down, drew out a white cambric, delicately perfumed, wiped his brow. removed his gloves, stroked his hair and beard, took up his Bible, kissed it and read, examined his cane. used his handkerchief again—and all the time keeping himself in constant motion. I say all the time. occasionally, he was passive for a few minutes-his attention, apparently aroused by some truths from the minister—but these times were rare. His countenance assumed all kinds of expressions. Contempt. alarm, pleasure, earnestness, sorrow and anger, flitted across it in rapid succession. It reminded me more of what children call 'making faces' than anything

"After the services were over, I ascertained that this gentleman was no other than the nephew of John Randolph, of Roanoke. He calls himself Sir John St. George Randolph, and is sole heir to his celebrated uncle. Randolph, himself, remarked with bitterness, during his last days, that their blood flowed dumb and insane.
